

Buy a business. Or sell yours as a franchise.

Zoom Franchise is an app where people can buy a ready made business, and business owners can turn their business into a franchise and sell locations.

Think of it like real estate listings, but for businesses.

Want to own a business?

- Browse the franchises in the app and see the price and exactly what you get
- Tell us which one you like and register your interest
- We screen every buyer and make the introduction
- Browsing is free

Already own a business?

- We package your business into a franchise: manual, training, pricing and brand kit
- The legal paperwork is handled through our partner lawyer
- We list it in the app and bring you buyers
- You collect the franchise fee and grow using other people's locations

How it works

1

Browse or list

Buyers look through the app.
Owners get their franchise listed.

2

Get matched

We screen buyers and introduce
the right ones to the owner.

3

Open or sell

The buyer opens the location. The
owner grows the brand.

First opportunity in the app: a turnkey residential daycare in BC. Register interest is open now. Ask us for the details.
